

CAPABILITY STATEMENT

www.redriverst.com

Red River Science & Technology, LLC (RRST) is headquartered in Lawton, OK. Founder, Army Brigadier General (Retired) Jesse R. Cross, Quartermaster Corps. We have established and maintained an excellent reputation for high quality, on time performance. Our core values are knowledge, innovation, reliability, and satisfying customer needs.

RRST assists in optimizing training, facility support, logistics, supply chain management/property accountability and administration processes. We recognizes that our reputation for quality is dependent on the expertise, experience, and skills of the personnel we are able to provide. We provide and deliver a variety of logistics, training, and administrative support functions summarized below.
